

EXHIBIT 2: TIMELINE OF STATUTORY VIOLATIONS - HOMS INVESTIGATION SUMMARY REPORT

Subject [REDACTED]

Respondent: Prior Lake-Savage Area Schools (ISD 719)

Statutory Focus: Minnesota Government Data Practices Act (Minn. Stat. § 13.04, Subd. 4) and FERPA (20 U.S.C. § 1232g)

Executive Summary

This exhibit documents a secondary, sustained failure by Prior Lake-Savage Area Schools (ISD 719) to fulfill its statutory obligations regarding the correction of inaccurate and misleading student data. Despite formal, written challenges initiated by the Complainant in May 2025 concerning the "2024 HOMS Investigation Process Complaint - Summary Report," the District refused to amend the document. The report contains materially misleading omissions regarding the Complainant's requests for trauma-informed accommodations and demonstrably false statements regarding the timeline of safety concern reporting and the student's enrollment status. Upon issuing a blanket denial, the District willfully failed to append the parent's legally mandated "Statement of Disagreement" to the record, continuing a documented pattern of maintaining and disseminating misleading educational records in violation of state and federal law.

Exhibit 2: Timeline of Statutory Violations Regarding the HOMS Investigation Process Summary Report

Subject [REDACTED] / Prior Lake-Savage Area Schools (ISD 719)
Legal Authority: Family Educational Rights and Privacy Act (FERPA), 20 U.S.C. § 1232g; Minnesota Government Data Practices Act (MGDPA), Minn. Stat. § 13.04.

I. Overview

This exhibit documents the District's procedural and substantive failures regarding the management, correction, and disclosure of educational records associated with the "2024 HOMS Investigation Process Complaint." Specifically, it highlights the District's "blind denial" of data in April 2026, its refusal to maintain an accurate record of a physical assault, and its subsequent failure to comply with the mandatory requirement to attach a parental statement of disagreement to contested data.

II. Chronological Timeline of Actions and Omissions

Date	Event / Document	Statutory Significance
10/29/2024	Physical assault incident occurs in health class.	Creation of primary incident record.
01/04/2025	"2024 HOMS Investigation Process Complaint – Summary Report" issued by Emily Herman.	Report contains factual errors (minimizing assault, claiming "refusal" of interview).
05/06/2025	Formal Correction Request: [REDACTED] submits 7-page "Request for Education Record Correction" identifying misleading omissions in the Jan 4 report.	Trigger for 30-day [REDACTED] window under Minn. Stat. § 13.04, Subd. 4.
05/27/2025	District Denial: Emily Herman refuses to correct the record, asserting it is "correct and complete."	Trigger for mandatory "Alternate Statement" attachment.
04/13/2026	New Data Request: [REDACTED] requests Jan 4, 2025 Summary Report and all [REDACTED]	Test of District's data maintenance compliance.

Date	Event / Document	Statutory Significance
04/22/2026	related records. Data Production ("Blind Denial"): District provides a heavily redacted copy of the Jan 4 report without statutory justification.	Violation of § 13.03, Subd. 3(f). No "Statement of Disagreement" attached.

III. Identified Statutory Violations

1. The "Blind Denial": Failure to Cite Legal Authority (Minn. Stat. § 13.03, Subd. 3(f))

The District's April 22, 2026, production constitutes a "blind denial" of access to public and private data. While the produced document contains extensive redactions, the District failed to cite the specific statutory section or federal law on which the withholdings were based. Under the MGDPA, a government entity **must** provide this justification in writing to allow the requester to understand the basis for the denial.

2. Failure to Attach Statement of Disagreement (Minn. Stat. § 13.04, Subd. 4)

If a government entity refuses to correct data challenged by a subject, it is **statutorily mandated** to include an alternate statement of disagreement provided by the subject. This statement must be maintained as part of the record and provided whenever the contested data is disclosed. Despite the formal challenge on May 6, 2025, the report produced in April 2026 lacked this mandatory attachment.

3. Maintaining "Misleading" Records (FERPA, 20 U.S.C. § 1232g)

FERPA prohibits the maintenance of "misleading" records. The Jan 4 report characterizes a physical assault as a minor incident (2 hits vs. 5) and falsely claims the student "withdrew" shortly after the incident, ignoring records of continued enrollment and district-provided transportation through mid-December.

4. Denial of Access to Parent/Student Records (Incomplete Dataset)

The District claims one two-page report represents the "entirety" of the dataset, despite the report itself referencing "witness interviews" and "email exchanges." Under both MGDPA and FERPA, parents are entitled to access all evidence and records directly related to their child. The failure to produce interview notes or internal correspondence cited in the final report constitutes an unlawful withholding of data.

Hello Emily,

Thank you for your patience awaiting my response - I note I have been out of town and without access to email for the past two weeks. This looks like a great start - when can I expect to receive a fully responsive dataset that includes all emails I have sent, including the original emails reporting the sexual assaults?

Additionally, while I got in late last night and have yet to have a chance to fully review your earlier responses, it appears while preparing your responses to my data request you had time to complete the title ix investigation and come to a dismissal decision. Please consider this notification of my intent to appeal - I will follow up with full details later this evening, but at a bare minimum I would call out that the district was aware that a police investigation had been conducted into the matter, and never once expressed to it was having difficulty identifying the perpetrator or asked any follow-up questions. Additionally, I note the dismissal calls out [REDACTED] refused to submit an electronic response to interview questions, whereas the actual offer you made stated -

"We appreciate your concern with interviewing for your daughter. As mentioned previously, our investigation is separate from other entities and therefore we cannot use an outside interviewer for our process. We would still appreciate the opportunity to meet with you and your daughter either in-person or virtually. However, we would like to offer an alternative option. If you still do not wish to interview with us, we could send a set of written questions for our initial interview that you could complete with your daughter. **It would be best that the written responses are either dropped off at or mailed to Hidden Oaks or District Services Center to either [REDACTED] or myself.** This would ensure the email quarantine process would not impede the delivery of the responses."

Thank you,

Hello Emily,

It has been almost a month since I have heard from you. When can I expect to receive the full Google Workspace Email Log export? An update on my appeal?

I note both Google and ChatGPT put the time it would take a Google Workspace administrator to generate this data at between 20 minutes to an hour and a half, with the later estimate including 20 minutes for the administrator to locate, read, and understand the instructions. Can you help me understand why it has taken months?

Thank you,

I am writing to follow up on a batch of data subject requests I submitted to the District under the Minnesota Government Data Practices Act (Minnesota Statutes Chapter 13). I emailed these requests on **May 5, 2025** and **May 6, 2025**, respectively. As of today (May 7, 2025), more than 48 hours after the first request, I have not received any acknowledgment or confirmation that the District has received these requests. I am concerned about the lack of response, especially given the timely response requirements in Chapter 13.

Contrary to District framing, the timelines and response expectations I put forth are not arbitrary or unreasonable. Minnesota law **obligates prompt action** on data requests. In particular, **Minn. Stat. § 13.03, subd. 2** requires every government entity to establish procedures to ensure that requests for government data are handled "in an appropriate and prompt manner"[revisor.mn.gov](https://www.revisor.mn.gov). Furthermore, because my requests are for data about myself (i.e., I am the data subject), the timeline in **Minn. Stat. § 13.04, subd. 3** applies. That provision clearly states that the responsible authority "**shall comply immediately, if possible**" with a data subject's request, "**or within ten days of the date of the request, excluding Saturdays, Sundays and legal holidays, if immediate compliance is not possible.**"[revisor.mn.gov](https://www.revisor.mn.gov) In other words, the Data Practices Act expects a very prompt response for requests made by the subject of the data – up to a maximum of ten business days.

Failure to promptly acknowledge or respond to a data request is not a trivial matter. The Minnesota Department of Administration has issued guidance and advisory opinions underscoring that agencies must respond timely and cannot ignore requests. For example, in **Advisory Opinion 19-002 (2019)**, the Commissioner of Administration opined that when a state board "**did not reply to the data request**", that "**is not an appropriate response to a request for access to government data.**"content.govdelivery.com In another opinion, the Commissioner emphasized that an entity's failure to provide a data subject with access to their data within the ten-business-day window violates the statute – the City in that case "**did not respond appropriately**" when it "**did not respond within 10 business days**" as required by Minn. Stat. § 13.04mn.gov. These opinions make clear that **prompt communication and compliance** are mandatory obligations under Chapter 13, not optional courtesies.

Even if gathering the requested data might take up to the ten days allowed by law, **basic acknowledgment of receipt** is widely regarded as a minimum best practice. Promptly confirming that you received my request and are processing it is important for transparency and to assure me that the request is being handled. Many government entities follow this practice of acknowledging requests upon receipt as part of their Data Practices procedures wlsd.com. The lack of any acknowledgement from the District thus far raises concerns that my requests may not have been received or logged, or that they are not being handled in the statutorily required manner.

In light of the above, I respectfully request the following:

- **Immediate acknowledgment of receipt** of my May 5 and May 6 data requests. Please confirm that these email requests were received by the responsible authority or designee, and the dates on which they were received.
- **Estimated timeline for compliance with my requests.** Please inform me when I can expect to inspect or receive copies of the requested data. As noted, Minn. Stat. § 13.04, subd. 3 requires that data subject requests be fulfilled "**immediately, if possible,**" and absolutely no later than ten business days from the request date revisor.mn.gov. An indication of when the District plans to provide the data (or an explanation if more time is needed for a complex request) will help ensure we remain within statutory compliance.

I want to emphasize that **these requests were properly submitted under Chapter 13**, and the District has a legal obligation to respond **promptly and fully**. At minimum, a timely acknowledgment is expected. I am eager to cooperate and willing to clarify any aspect of my requests if needed. However, I need confirmation that the District is aware of the requests and is moving forward to fulfill them as required by law.

Thank you for your prompt attention to this matter. I look forward to your immediate acknowledgment and an update on the processing of my data requests. If there is any reason for the delay or if additional information is required from me, please let me know right away. Prompt communication will help avoid any further issues and ensure compliance with the Minnesota Government Data Practices Act.

Sincerely,

[Redacted signature]

Dear Mr. [REDACTED]:

I am writing in response to your emails dated May 6, 2025, May 9, 2025, and May 11, 2025.

1. Request for Education Record Correction – HOMS Process Summary Report

I write in response to your May 6, 2025 "Request for Education Record Correction – HOMS Process Summary Report." In it, you request that the District revise the following statements because they are "misleading, inaccurate, and in violation of [your] daughter's rights under FERPA.":

Despite multiple attempts by the district to arrange an interview with the student, the alleged victim's father declined through an email exchange.

CO did not report any concerns regarding her physical safety at school before the incident... The only mention of issues by CO occurred after she had already withdrawn from the district.

The District denies your request. The District has determined the data to be correct, complete, not inaccurate, and not misleading. Although you do not specifically allege the data is "in violation of the student's rights of privacy" (see 34 C.F.R. § 99.20(a)), the District concludes that the data similarly does not violate your daughter's rights of privacy.

If you still believe that the information in the record is inaccurate, misleading, or otherwise in violation of your student's privacy, you have the right to a hearing to further contest this decision under either the Family Educational Rights and Privacy Act ("FERPA") or the Minnesota Government Data Practices Act ("MGDPA").

If you request a hearing under FERPA, the applicable procedures are contained in 34 CFR § 99.22. The hearing will be conducted by an individual, including a District official, who does not have a direct interest in the outcome of this hearing. Within a reasonable time after the hearing, you will receive written notice of the final decision, which will include a summary of the evidence and the reasons for the decision. If you want to have a hearing pursuant to FERPA to demonstrate that the information in the record is inaccurate, misleading, or otherwise in violation of your student's privacy, please contact me.

If you request a hearing under the MGDPA, the applicable procedures are contained in Minnesota Statutes Section 13.04, subdivision 4. You have the right to appeal the District's determination to the Commissioner of the Minnesota Department of Administration in

accordance with the Administrative Procedure Act, Minn. Stat. § 13.04, subd. 4(d). Such appeal must be submitted to the Department of Administration within sixty days of the date of this letter.

2. May 9 and May 11 emails

Most of the communication is not a data request. To the extent any portion of it could be interpreted as a data request, the District has already provided all existing responsive data. No additional responsive data exists. Copies of the data previously provided can be found in the [SQ Data Request Folder](#), which you have access to.

The District will continue to only respond to communications that are required under District policy and state law. We will consider new data requests only if they are properly submitted in accordance with our established procedures. To ensure clarity and efficiency, we encourage you to use the Data Request Form, available here: [Data Request Form](#).

If you wish to continue disputing the District's processes, conclusions, policies, or interpretations of applicable statutes, we advise you to direct those concerns to the appropriate external authorities. The District will not engage in continued correspondence or debate on these matters.

Respectfully,

A handwritten signature in black ink that reads "Emily N. Hansen".
